

## Appendix 1-6 Sustainability Disclosure Indicators - Steel Industry

| No. | Indicator                                                                                                                                                             | Indicator Type | Annual Disclosure | Unit                                         | Remarks |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|-------------------|----------------------------------------------|---------|
| 1   | Total energy consumption, percentage of purchased electricity, utilization rate(renewable energy/total energy), and total self-generated and self-use energy (Note 1) | Quantitative   |                   | Gigajoules (GJ) , percentage (%)             |         |
| 2   | Total fuel consumption, percentage of coal, percentage of natural gas, and percentage of renewable fuels                                                              | Quantitative   |                   | Gigajoules (GJ) , percentage (%)             |         |
| 3   | Total water withdrawn and total water consumption                                                                                                                     | Quantitative   |                   | Thousand cubic meters (1,000m <sup>3</sup> ) |         |
| 4   | Total waste generated, percentage of hazardous waste and percentage recycled                                                                                          | Quantitative   |                   | Metric tons (t), percentage (%)              |         |
| 5   | Number of employees in and rate of occupational accidents                                                                                                             | Quantitative   |                   | Quantity, ratio (%)                          |         |
| 6   | Production by product category                                                                                                                                        | Quantitative   |                   | Varies by product category                   |         |

Note 1: The total self-generated and self-use energy are as defined by the “Renewable Energy Development Act”, “Implementation Regulations Governing Renewable Energy Certificates”, or related laws.

Note 1: The total self-generated and self-use energy is as defined by the “Renewable Energy Development Act”, “Implementation Regulations Governing Renewable Energy Certificates”, or related sub-laws.
